Stage 2 User Guides

Stage 1: Discover	Stage 2: Develop	Stage 3: Define
1. Add Needs Statements	1. View Needs Statements	1. View Needs Statements
2. Review and Assess Needs Statements	2. Prepare Stakeholder Surveys	2. Assess Needs Statements for Strategic Alignment
	3. Review and Assess Needs Statements	3. Review and Prioritise Needs Statements

From the Stage 2 Section of the main Navigation Panel, you are able to access the functionality needed to undertake the 'Develop' Stage of the EBN Process.

From the list of Need Statements which can be accessed from the 'View' or 'Review and Assess" Need Statements options, you can edit the Need Statements themselves, or add additional evidence, just as you can at Stage 1.

The principal task at Stage 2 is to Prepare and Undertake Surveys of Stakeholders.

Once Responses from the Stakeholder Surveys have been received, the 'Review and Assess Need Statements" option can be used to Assess which Need Statements should be progressed to Stage 3.

The Stage 2 Dashboard is available to give you an overview of progress with work in this Stage.

Hint: The Orange Buttons

On the Pages in the 3 Stages on EBNLab, the main objective of any of these screens can be identified by the primary outcome or task of that screen being denoted by the orange action button.
